Subject: Re: Germany and EU Meetings

There is a G7 agenda meeting with the Administrator on May 30, but would you like to meet before that?

Do you have contacts at Oklahoma State or Tulsa University that we could contact?

Not hearing any objection, I will arrange bilateral meeting with Germany and EU Ministers on margins of the G7.

Thanks.

Thank you. It would be worth another meeting soon to address the openended events in Canada and I would be interested in going through the G7 agenda to discuss how best to have the Administrator prepared to participate.

Finally, the University of Tulsa would be appropriate or Oklahoma State University given the side events focus on food policy. Oklahoma State University is the land grant college for Oklahoma and is our agricultural sciences and veterinary school.

Ryan,

Just checking about the Germany request for a call with Minister Hendricks and EU request for a meeting with Commissioner Vella on the margins of the G7 Environmental Ministerial Meeting – need to get back to the Embassies.

We also heard back that the University of Oklahoma cannot send someone to the G7 university side event due to budget issues – will work to identify another university.

Finally, JP and I had a call with Canada this afternoon about the CEC meeting and they are going to try to address our concerns.

Thanks,

Jane

Subject: Germany and EU Meetings

Ryan,

The German Embassy requested a call with Minister Hendricks so that she can explain the cancellation of her trip and meeting with the Administrator this week. Due to the Administrator's travel schedule, we were not able to schedule it this week and the Embassy is proposing a call next week. It is likely that Minister Hendricks will also raise the Paris Agreement in her call. If you think this call should be deferred, we could propose instead a bilateral meeting on the margins of the G7 Environmental Ministerial Meeting in Italy.

We have also received a request from the European Commission for a bilateral meeting with Minister Vella on the margins of the G7 Environmental Ministerial Meeting. Commissioner Vella manages environment, marine and fisheries issues, but his portfolio does not include climate change.

The Administrator's schedule for the G7 portion of the Italy trip is very tight, but we could try to add bilateral meetings with the EU and Germany. A bilateral meeting with the Japanese Minister has already been scheduled at Japan's request.

Let me know what you think, thanks.

Jane
